John F. Mahoney, Medical Director
Director, V. D. Research Laboratory
U. S. Marine Hospital
Staten Island 4, New York

Through: The Director
Pan American Sanitary Bureau

Dear Dr. Mahoney:

In talking the matter of the gift to the Insane Asylum with the Director and the Sister in charge they state that they would like to have the following:

One refrigerator
One 16 mm sound projector of a good sturdy build
Some metal plates and cups, not enamel.

As you remember we discussed spending about \$1500.00 to be charged out as payment to volunteers. I would appreciate your comments and if we can go ahead with the matter it would be possible for someone in the laboratory to look into the matter in New York. At the same time one of us will go to the Canal Zone in the near future to see if the material can be bought there as that will mean that we can bring it all back by Army plane.

Sincerely,

John C. Cutler
Surgeon, USPHS
